

Dear members

Today we have very sad news for you:

It's with great sadness we learned our former board member has passed.

Prof. Jean Jacques DETRAUX

Eurllyaid owes him a lot as he was one of the visionaries and founders of **Eurllyaid** in 1988 and has been intensively involved in the development of the network, the Manifesto and many other activities. His knowledge and calm personality were of great value to our work and functioning. In 2017 he retired from the board. We wished him on that occasion many happy years to follow with his family and in the work he still did.

It's been too short.....

We will miss him and remind him with gratitude
Our thoughts are with his family

Eurllyaid will keep you in mind
