Dear colleagues,

In this newsletter we will inform you about 3. AVAPACE Erasmus+ project meeting in Viterbo, Italy

CP-EARLY INTERVENTION_ 2018-1-ES01-KA204-050736

General information about Project

Target groups: 'early care families, professionals and adults with cerebral palsy. In this project, the main objective is the empowerment of the family based on specific training in the paradigm of family-centered practices. It is a training, guidance and information for people with cerebral palsy with the aim of including them in the family support network through the on line platform.

For the families, an accompaniment is proposed from formations where the common themes of interest are treated, with the aim of training families to improve the sense of self-efficacy and self-efficacy in relation to the development of their sons and daughters.

This project was launched as of November 1, 2018 and will be carried out until November 1, 2020.

Sharing and decision making of each DETA (Designed Experiential Training Activities)

*after discussion with all partners the **conclusions** were:*

- for a start making a video presentation about the entire program would be good and offer inspiration to the professionals that will do the training.
- we will make a DETA 0, which is about the principles of early intervention.

- the timeline for each output was discussed and agreed upon
- at the beginning of each output will be added a video explanation off approx. 2 minutes about:
 - What you can expect?
 - Competences and goals for these activities.
 - Why this output is important in early intervention.
 - We propose an international Author to make this introduction video with all the mentioned points.

- Participants must pass an online questionnaire after each DETA to be able to get access to the next one.
