Newsletter AVAPACE PROJECT, period June-October 2020

Dear members,

We hope you all are ok and still in good health. And manage to stay safe as we are in a situation of rising Covid cases, unfortunately.

We experience all of us continue to do the utmost, for a small period of time from offices and now again mostly from home, to keep on teaching, supporting families and each other as colleagues. We realize it's not easy.

Project meetings and multiplier events in person did not happen this year and were substituted by online meetings.

Pilot trainings also mainly have been online.

General information about Project

Target groups: 'early care families, professionals and adults with cerebral palsy. In this project, the main objective is the empowerment of the family based on specific training in the paradigm of family-centered practices. It is training; guidance and information for people with cerebral palsy with the aim of including them in the family support network through the online platform.

For the families, an accompaniment is proposed from formations where the common themes of interest are treated, with the aim of training families to improve the sense of self-efficacy and self-efficacy in relation to the development of their sons and daughters.

This project was launched as of November 1, 2018 and will be carried out until November 1, 2020.
